

Butler All Stars

Golf Sessions

Golf sessions are going to provide children and young people with a competitive spirit, physical exercise and will provide tournaments and competitions for everybody, regardless of ability or disability. Professional staff present at all times to assist with any problems.

“Loved whacking the golf balls at the targets on the range”

- Alfie, age 15

Woodland Sessions

With Butler All Stars, all children and young people will be able to participate in woodland sessions which involves being outdoors, connecting with nature and exploring the local wilderness. This will allow them to become more hands-on and have more experience of being outdoors and being able to be in the fresh air and have a practical approach.

“I don’t have ADHD when I’m out in the woods”

- David, age 14

Animal Sessions

Alongside the golfing is getting to interact with animals and getting the chance to learn about the animal kingdom. Mark Butler's facilities have an on-site animal farm which provides a variety of different animals to encounter and to learn about and have a great day out! Funding can be applied for. Sessions can take place during curriculum time or after/outside school hours.

“Animals don’t see my disability they see me the same as others” – Lucy, age 12

Volunteering Opportunities

There may be volunteering opportunities with the sessions described above. This will give children and young people the opportunity to gain different disciplines such as in hospitality/retail etc. and have work experience for their CVs and could lead to further employment.

"I love going to work, I have many abilities. I do different jobs & tasks each week and all my mates have helped me learn new important work/life skills. My favourite thing is that everyone works as a team at Mark Butler Golf Academy and I love being part of the team"

- Keeley, age 14
